If difference calculated on line 17 is a positive amount of \$1,000.00 or more, a revised Amended/Annual Tax Return for the year plus payment of any additional tax due must be promptly remitted to the Illinois Commerce Commission. If the calculated difference is less than \$1,000.00 or a negative amount no further action is required regarding your tax reconciliation. (The tax owed on \$1,000 at the current tax rate of (.001) is \$1.00. According to the Pub Utilities Act a deficiency in taxes paid of less than \$1.00 need not be paid to the Commission.)

Subsection 2-202(d)(1) of the Public Utilities Act (220 ILCS 5/2-202(d)(1)) states: "each public utility shall file an amended return showing the actual amount of gross revenues shown by the company's books and records as of December 31 of the previous year." For a utility filing its Public Utility Fund Gross Revenue Return using the "receipts" method, provide a reconciliation between the amounts used for revenues and deductions on the Gross Revenue Return and the amounts in the Annual Report. If these amounts cannot be reconciled, provide the necessary documentation to fulfill the requirements of Subsection 2-202(d)(1) of the Public Utilities Act to the Commission's Manager of the Accounting Department. The necessary documentation can consist of a detailed analysis of actual billed revenue to the receipts collected. Supporting work papers should include the cash receipts journal showing the receipts collected. Also, provide documentation supporting the deductions.

GROSS REVENUE TAXES ARE BASED ON COLLECTIONS, NOT ON BILLING RECEIPTS.
